Boiler or Pressure Vessel First Data Report Guideline

Technical Standards and Safety ActBoilers and Pressure Vessels Regulation

Guideline for completing the Boiler or Pressure Vessel First Data Report

	Odideline for completing the Boller of Tressure ves	
Item #	Description	Example
1	Provide the name of the owner of the pressure equipment.	
2	Provide the address of the owner.	
3	Provide the name of the contact person and contact information of the owner of the pressure equipment.	
4	Provide the TSSA account number of the owner.	
5	Select box if the user is the same as the owner.	
6	Provide the name of the user of the pressure equipment, if different than stated in 1.	
7	Provide the address of the user, if different than stated in 1.	
8	Provide the name of the contact person and contact information of the user of the pressure equipment, if different than stated in 1.	
9	Provide the TSSA account number of the user, if different than stated in 1.	
10	Canadian Registration Number (CRN) of the pressure equipment found on the nameplate. Include the 5AN/5IN number if applicable.	12345.5
11	The name of the manufacture found on the nameplate.	
12	The year built found on the nameplate.	2021
13	Manufacturer's serial number found on the nameplate.	100
14	National Board Number found on the nameplate.	123
15	Ontario Identification Number (O.I.N.) found on the nameplate, if	
	applicable.	
16	Select the appropriate ASME Code Symbol/Designator found on the	
17	nameplate (if applicable). Description of the pressure equipment.	Heat Exchanger, Boiler, etc.
17	Select if the pressure equipment is new or used. If the equipment is	Treat Exchanger, Boller, etc.
	used, state in the Remarks Section 38 any additional information,	
18	including pressure testing completed on a used vessel when requested	
	by the TSSA Inspector.	
19	State the existing Unique Identification Number (UID) of the pressure equipment (if applicable).	
20	Overall diameter/width of the pressure equipment.	24" OD, etc.
21	Overall length of the pressure equipment.	36", etc.
22	Overall height for plate heat exchangers.	36", etc.
	Maximum Allowable Working Pressure (MAWP) of the shell/primary side	
23	of the pressure equipment found on the nameplate.	200 psi, etc.
24	Temperature of the shell/primary side of the pressure equipment found on the nameplate.	250°F, etc.
25	Fluid contained in the shell/primary side of the pressure equipment.	Air, water, etc.
26	Pressure Relief Device setting on the shell/primary side of the pressure equipment.	250 psi, etc.
27	Maximum Allowable Working Pressure (MAWP) of the tube or jacket/other side of the pressure equipment found on the nameplate.	200 psi, etc.
28	Temperature of the tube or jacket/other side of the pressure equipment found on the nameplate.	250°F, etc.
29	Fluid contained in the tube or jacket/other side of the pressure equipment.	Air, water, etc.
30	Pressure Relief Device setting on the tube or jacket/other side of the pressure equipment.	250 psi, etc.
31	Heating surface of the Boiler.	50 sq.ft., N/A, etc.
32	Wetted surface of the Boiler	50 sq.ft., N/A, etc.
33	Number of Sections for plate exchangers	100, N/A, etc.
34	Select if the pressure equipment is insured.

Boiler or Pressure Vessel First Data Report

Technical Standards and Safety Act

Boilers and Pressure Vessels Regulation

35	Name of the insurer of the pressure equipment.	
36	Select if the pressure equipment is rented.	
37	State any applicable information regarding the rental of the pressure equipment. If additional space is required, add to the Remarks Section 38.	Rented for 1 year, periodic inspection required, etc.
38	Include any relevant remarks of the pressure equipment, including any directives issued.	For used vessels:
39	For TSSA use only, select if the pressure equipment is in such condition that the Certificate can be issued. If "No" is selected and further action is required, the reason (including directive references) shall be noted in the Remarks Section 38.	
40	For TSSA use only, select the inspection cycle of the pressure equipment.	
41	For TSSA use only, if the inspection cycle of the pressure equipment is exempt, include the reference of the exemption.	CAD: BPV-20-01 R1, 5.1.4, etc.
42	For TSSA use only, print name of the TSSA Inspector.	
43	For TSSA use only, signature of the TSSA Inspector.	
44	For TSSA use only, include the provincial Certificate of Competency Number.	
45	For TSSA use only, record the date of the pressure equipment inspection.
