 Elevating Devices Regulation

Multiple Contractor Registration Number Application Form

All Contractors are required to be registered as per O.Reg 209/01 s.14 and s.21. TSSA issues registered contractors with a contractor registration number. Only **one** registration number is required per contractor, but in some circumstances contractors may elect to obtain additional registration numbers to identify and track activities associated with branch or satellite offices.

Multiple registration numbers can be used for the following purposes:

- TSSA can auto email copies of periodic inspection reports to the maintenance contractor of record. If it is desirable to have inspection report copies sent directly to local branch offices multiple registration numbers are required
- TSSA collects statistics for the purpose of generating contractor ratings (Contractor ratings impact inspection frequencies). Where multiple contractor numbers exist, each contractor number will be assigned a contractor rating
- Multiple contractor numbers permit separated tracking and separated emailing to branch offices.

If contractors are interested in obtaining multiple registration numbers, complete one branch office info section below for each branch office. **Note: A \$300 fee applies for each additional contractor number above and beyond the required main or "parent" number. Branch offices share the same contractor registration categories as those requested for the 'parent' registration. Registration category fees are not charged to branch offices.**

'Parent' Contractor
